

Delivery programme wire

Delivery forms

- Wire formers / spiders from Ø 1.00 mm – 10.00 mm up to 1,000 kg
- Coils from Ø 1.00 mm – 33.00 mm up to 3,000 kg
- Layered coils from Ø 2.00 mm – 16.00 mm up to 3,000 kg

Materials

- Cold heading wire for bolts, nuts and cold extrusion parts according to DIN EN 10263, parts 1 to 4
- Cr, CrB, CrMo or CrNiMo alloyed materials
- Heat-resistant cold heading wire, e.g. 21CrMoV5-7
- Shaped wire (hexagonal, square, drawing profiles)
- Ball and roller bearing steels according to DIN EN ISO 683-17, e.g. D85, 100Cr6
- Tool and spring steels, e.g. 50CrV4, 61CrSiV5
- Unalloyed steels for quenching and tempering, e.g. C60E, C85
- Custom materials

Surface

- Zinc phosphated
- Zinc phosphated and reactive soaped
- Zinc phosphate-free
- Bright
- Soaped
- Polymer coated
